Find out more

Call our Customer Care team toll-free at the number on the back of your Humana member ID card to find out about preventive screenings covered under your plan.

Humana®

Preventive care

Preventive services help you stay healthy, detect health problems early, determine the most effective treatments, and prevent certain diseases. Preventive services include exams, shots, lab tests, and screenings. They also include programs for health monitoring, and counseling and education to help you take care of your own health.¹

Your Annual Wellness Visit and talking with your doctor or medical provider is a great first step. They can help give you a road map of what you need to do. Talk with your provider about what preventive screenings you need and how often you need them.
